

## Course Details

### Central Management Console Configuration & Operations

#### Course Information

**Number of Days:** 2 days

**Instruction Method:** Instructor-led

**Riverbed Software (RiOS) Version Used in Class:** 6.x

#### Course Description

*Central Management Console Configuration & Operations* is a two-day, lab-intensive course delivered by Riverbed technical experts. This task-oriented course imparts the knowledge and skills needed to deploy and administer the Riverbed Steelheads using the Central Management Console (CMC).

#### Who should take this course?

*Central Management Console Configuration & Operations* is targeted specifically for Riverbed resellers/partners or customers involved in the design, deployment, or administration/technical support of the Steelhead appliances and the CMC.

#### Prerequisites

- *Steelhead Appliance Deployment & Management* course is **highly recommended**
- Certification as a CCNP/CCIP or the equivalent internetworking knowledge extremely helpful (routing protocols, TCP/IP, network design, and troubleshooting)
- Participants are **required** to bring along their own laptops **AND**,
- If using our hardware, a serial cable is required or a USB-to-serial adaptor for the class labs (please view the confirmation email sent to you regarding version of course being delivered)
