

## Product Brief: Steelhead Mobile

Riverbed® extends the benefits of its award-winning WAN optimization technology to any individual, including mobile workers, temporary locations, and very small offices

Steelhead Mobile provides mobile workers LAN-like access to corporate files and applications no matter where they are, anywhere in the world. With a simple software package installed transparently on their laptops or desktops, Steelhead Mobile extends virtually the same functionality found in Riverbed's award-winning Steelhead appliances to mobile workers everywhere.

Steelhead Mobile works by interacting directly with any Steelhead appliance to optimize applications the same way in which two Steelhead devices would work together, the effect is like putting a Steelhead appliance directly on a users laptop. Steelhead Mobile utilizes the Steelhead Mobile Controllers (SMC) to manage the Steelhead Mobile licenses and controls the deployment, management, and reporting of the Steelhead Mobile software clients. Organizations from small-to-mid-size businesses (SMBs) to the largest global corporations can take advantage of these features to deploy a cost-effective mobile WAN optimization solution to deliver performance improvements up to 100x.

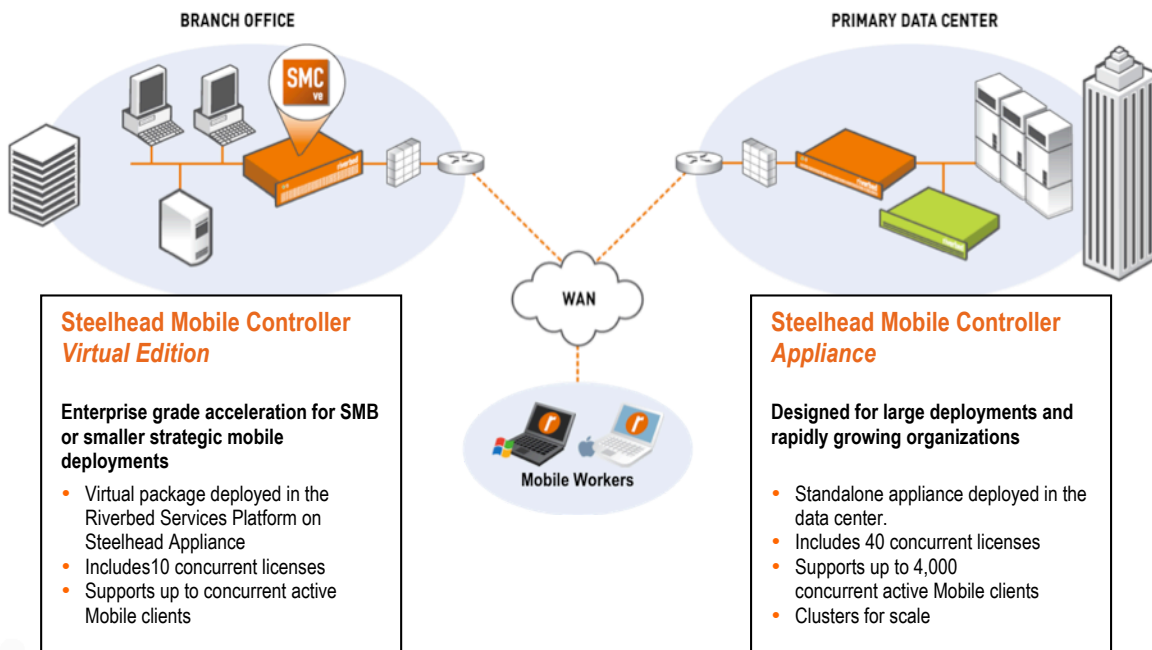

For mobile workers, this means that they can be productive again. They can collaborate with co-workers in real time. Design documents, Excel files, or even large email attachments can be sent at blazing speeds around the world. Being on the road is no longer a barrier to getting their jobs done.

### SUMMARY

Riverbed's Steelhead Mobile delivers leading-edge application acceleration to mobile workers wherever they connect to the network.

Providing support for the broad range of applications that enterprises use the most, Steelhead Mobile enables remote workers to collaborate and access applications as if they were in the office. Steelhead Mobile helps eliminate performance problems caused by bandwidth constraints, latency, or application protocol inefficiencies, resulting in enhanced user productivity and satisfaction.

With Steelhead Mobile, data moves faster, applications perform seamlessly, and remote workers are no longer "remote".

**Steelhead Mobile Requirements**

System Requirements: Steelhead Mobile	
<b>Operating System</b>	Windows 2000 SP4, XP SP2 (32 bit versions only), Vista (32 bit and 64 bit versions), Windows 7 (32 bit and 64 bit versions) Mac OSX 10.5 and 10.6 (Intel only)
<b>CPU</b>	Celeron 650 MHz
<b>Memory</b>	256 MB
<b>Data Store</b>	250 MB free disk space (min. required)
<b>Steelhead Appliance<sup>1</sup></b>	Required
<b>Steelhead Mobile Controller (SMC)</b>	Required: Either Steelhead Mobile Controller Appliance or Steelhead Mobile Controller Virtual Edition

Software Specifications: Steelhead Mobile	
<b>Concurrent Clients Supported per SMC</b>	4,000 (SMC-Appliance) / 100 (SMC-Virtual Edition)
<b>Concurrent Clients Supported with SMC Cluster<sup>2</sup></b>	n x 4,000 <sup>3</sup>
<b>VPN Compatibility<sup>4</sup></b>	Cisco, Juniper, Nortel, OpenVPN, Microsoft, Aventail, Citrix, AT&T Netclient, Array, Checkpoint, F5, Sonicwall, Fortinet, WatchGuard
<b>Wireless PC Card Compatibility<sup>5</sup></b>	Verizon, AT&T, Sprint

1 - At least one Steelhead appliance is required running RiOS version 4.x or higher.  
 3- For large-scale deployments the SMC's upgrade mechanism should not be used for over 2,000clients  
 5 - Partial listing. Wireless PC Card compatibility may be impacted dependent upon hardware and driver versions, bundled software and other factors. Refer to detailed wireless specifications at [http://www.riverbed.com/products/steelhead\\_mobile/wireless](http://www.riverbed.com/products/steelhead_mobile/wireless) for more information

2 - SMCs can operate in clustered mode to support additional Steelhead Mobile clients  
 4 - Partial listing. VPN compatibility may be impacted by vendor software version, client configuration, and other factors. Refer to detailed VPN specifications at [http://www.riverbed.com/products/steelhead\\_mobile/vpn\\_specs/](http://www.riverbed.com/products/steelhead_mobile/vpn_specs/) for more information.

**About Riverbed**

Riverbed Technology is the IT infrastructure performance company. The Riverbed family of wide area network (WAN) optimization solutions liberates businesses from common IT constraints by increasing application performance, enabling consolidation, and providing enterprise-wide network and application visibility – all while eliminating the need to increase bandwidth, storage or servers. Thousands of companies with distributed operations use Riverbed to make their IT infrastructure faster, less expensive and more responsive.
