

Course Details

Steelhead™ Mobile Installation & Configuration

Course Information

Number of Days: 1 day

Instruction Method: Instructor-led

Riverbed Software (RiOS) Version Used in Class: 5.x

This course uses RiOS software version 5.x and Steelhead Mobile Client software version 1.x.

Course Description

Steelhead Mobile Client Installation & Configuration is a one-day, lab-intensive course delivered by Riverbed technical experts. This task-oriented course imparts the knowledge and skills needed to deploy and administer the Riverbed Steelhead Mobile Client, Controller, and Steelheads in complex network environments.

Who should take this course?

Steelhead Mobile Client Installation & Configuration is targeted specifically for Riverbed resellers or customers involved in the design, deployment, or administration/technical support of the Riverbed Steelhead Mobile Client, Controller, and Steelhead appliances.

Prerequisites

- *Steelhead Appliance Deployment & Management* course is **required**
- Certification as a CCNP/CCIP or the equivalent internetworking knowledge extremely helpful (routing protocols, TCP/IP, network design, and troubleshooting)
- Basic knowledge of the Linux operating system is helpful but not required
- Participants are **required** to bring along their own laptops **AND**,
- If using our hardware, a serial cable is required or a USB-to-serial adaptor for the class labs (please view the confirmation email sent to you regarding version of course being delivered)

Course Topics

- Course Introduction
- Product Overview
- Initial Configuration (Controller, PC/Laptop, and Steelhead)
- Hands-on Exercise: Initial Configuration/Connectivity
- Customization - Controller
- Reports and Monitoring
- Technical Session In-Path – Hands on (Customization Policy, Out-of-path, and Upgrade)

- Troubleshooting
- Course Review
