

Course Details

Interceptor™ Appliance Installation & Configuration

Course Information

Number of Days: 2 days

Instruction Method: Instructor-led

Riverbed Software Versions Used in Class: RiOS 6.x, Interceptor 2.x

Course Description

Interceptor Appliance Installation & Configuration is a two-day, lab-intensive course delivered by Riverbed technical experts. This task-oriented course imparts the knowledge and skills needed to deploy and administer Riverbed Interceptor and Steelhead appliances in complex network environments.

Who should take this course?

Interceptor Appliance Installation & Configuration is targeted specifically for Riverbed resellers/partners and customers involved in the design, deployment, or administration/technical support of Interceptor and Steelhead appliances.

Prerequisites

- *Steelhead Appliance Deployment & Management* course is **required**
- Certification as a RCSP/CCNP/CCIP or the equivalent internetworking knowledge extremely helpful (routing protocols, TCP/IP, network design, and troubleshooting)
- Basic knowledge of the Linux operating system is helpful but not required
- Participants are **required** to bring along their own laptops **AND**,
- If using our hardware, a serial cable is required or a USB-to-serial adaptor for the class labs (please view the confirmation email sent to you regarding version of course being delivered)

Course Topics

- Product Overview
- Interceptor Initial Configuration & Reporting
- Interceptor In-path Rules
- Interceptor Redirection & Configuration Example
- Interceptor Configuration Verification & Statistics
- Configuring Peer Neighbors
- Interceptor Load Balancing Rules
- Configuring Interceptor Failover & Configuration Example
- Configuring Peer Interceptors & Configuration Examples
- Course Summary
