

Technical Audience

TOP 10 REASONS TO ATTEND

10. **Save your company money.** Are you getting the most out of what you've already got? Learn how to extend the benefits of your current Riverbed installation even further. Walk away with a dozen or more new ideas on cutting costs with the tools you already have.
9. **Get hands-on experience with Riverbed tools and products.** Test-drive the latest Riverbed products at our Hands On Lab. It's staffed by our leading technical experts that are ready to answer questions and run demos. Additionally, attend Technical Sessions for more deep dives on products, features and solutions.
8. **Make your consolidation projects even more effective.** Learn how to consolidate faster and extend consolidation to places you didn't think were possible. Hear how other customers did it, and see demonstrations of next-gen products that will make consolidation faster and easier.
7. **Get technical training from the best.** This conference isn't about fluff — get both introductory technical training and advanced technical deep dives from Riverbed field experts, product gurus, and specialists.
6. **Separate cloud hype from reality.** Talk to customers who are using the cloud today and listen to experts, and cloud providers debate the current and future benefits.
5. **Get an unbiased view on where WAN optimization is headed.** Respected analysts and your own peers will discuss the future of WAN optimization and its role in IT performance.
4. **Learn from our technology partners at the Partner Expo.** This conference is about achieving greater IT performance — not just Riverbed. At Accelerate, you will get the chance to meet our leading strategic partners who can help you get more from IT. It's our largest partner exhibit ever!
3. **Network, network, network!** Take advantage of being in the same place with the best and brightest in the Riverbed family to share, learn, and exchange ideas. Including long-term Riverbed customers with a range of implementations, top technology partners, and leading System Integrators and Service Providers.
2. **Get a glimpse into the future of Riverbed.** Hear about the Riverbed vision and learn where the company is going over the next year — and the next five years. Learn about the Riverbed roadmap and get the chance to direct the future of the company to best suit your needs.
1. **Walk away with roadmap for IT performance.** You'll leave with detailed strategies on how to improve your company's IT performance including practical, hands-on technical training that you can put in practice today and contacts at Riverbed who can help you make the most of your Riverbed investment.
