# EUE-NF SteelCentral Aternity Analyst

---

This three-day class covers the complete SteelCentral Aternity Analyst learning path, which helps Riverbed customers and partners successfully perform analytical duties using SteelCentral Aternity, deployed as either SaaS or on premise.

This course focuses on the main Aternity use cases and on using the dashboards and ad-hoc analysis to

monitor, validate, troubleshoot and analyze basic to advanced application, device and user performance aspects.

This course is specifically designed for enterprise IT core teams using SteelCentral Aternity to analyze and act on their enterprise performance data. Typical participants would include help desk teams, application owners, desktop engineers, IT managers and executives, as well as the designated Aternity administrators.

---

## Course Topics

### Aternity Primer

Understand basic platform value, concepts, and usage.

### Platform Foundations for Analysts

Understand platform value in various IT settings, core platform concepts, and main dashboards.

### Use Cases Foundations for Analysts

Use the platform dashboards to examine basic application, device, and user performance aspects.

### Platform Essentials for Analysts

Understand complex platform concepts, advanced dashboards, and the data mining interface.

### Use Cases Essentials for Analysts

Use the platform dashboards and basic ad-hoc analysis to monitor, troubleshoot, validate, and analyze application and device performance in specific IT scenarios.

### Use Cases Advanced for Analysts

Use the platform dashboards and ad-hoc analysis to monitor, troubleshoot, validate, and analyze complex performance issues and device inventories.

### Advanced Data Mining

Perform practical performance investigations using advanced ad-hoc analysis techniques.

---

## Course Availability

### Classroom Training

30 Training Credits

Classroom Training is available to any Riverbed® customer or partner and includes lectures by a Riverbed® Certified Solution Instructor and access to the Riverbed® University eLab for hands-on experience.

Each class is priced per student attendee. We recommend dedicated classroom training for organizations with 8 or more students.

### Online Classroom Training

30 Training Credits

Online classroom training is taught remotely. Each online classroom training session includes real-time

lectures with a Riverbed Certified Solution Instructor and remote access to the Riverbed University eLab. Each class is priced per student attendee with a maximum of 16 students.

### Dedicated Classroom Training

Dedicated Classroom Training is available exclusively for one customer at a customer-designated facility. Each class includes lectures by a Riverbed® Solution Instructor and access to the Riverbed® University eLab. Each class is priced per event and is ideally suited for 8 students to 14 students.
