

Accelerate Your Riverbed® SteelCentral™ ApplInternals Deployment and Time to Value

Proven Methodologies to Increase Adoption and Utilization

New troubleshooting methods are required to take control of application performance problems in today’s complex IT environments. That’s why your organization has selected SteelCentral ApplInternals to continuously monitor your production applications – across all transactions and users – helping deliver high-performing applications at all times.

To quickly realize the benefits of SteelCentral ApplInternals, you need expert guidance on how to quickly operationalize the solution within your IT environment. And while SteelCentral ApplInternals delivers valuable information out of the box, many advanced capabilities and integrations are possible to truly tailor the solution to your unique business requirements.

Earn a faster time to value for your investment with the SteelCentral ApplInternals Implementation Service from Riverbed Professional Services (RPS) to achieve the following outcomes:

- Enhanced visibility into selected application performance
- Integration between purchased Riverbed components and other applicable systems such as event managers using built-in capabilities
- Reporting and alerting configuration
- Knowledge transfer from field experts for configuration, maintenance, and data analysis and insight
- Faster Riverbed solution adoption and time to value

Key Service Benefits

- Accelerate your ROI with Riverbed’s proven expertise and best practice methodologies
- Enjoy peace of mind with a ready-to-run, Riverbed-validated solution
- Streamline operations by implementing reliable, prescriptive, and repeatable workflows
- Avoid costly mistakes and minimize disruptions to business and IT operations
- Enhance knowledge and proficiency with targeted knowledge transfer sessions
- Establish an expansion-ready framework to easily accommodate future needs

Service Overview

RPS leverages proven, repeatable implementation methodologies to ensure consistent and positive outcomes. The SteelCentral AppInternals Implementation Service is delivered through the following phases:

Phase 1: Plan and Design

Lay the foundation for a successful implementation by gathering requirements and creating a design and/or implementation plan.

Phase 2: Configure

Prepare the products for final implementation with specific configurations that meet the requirements gathered during Phase 1.

Phase 3: Enable and Validate

Configure the products to enable immediate business value while validating data collection, report data, and alerting matches to the requirements gathered in Phase 1.

Phase 4: Document

Document best practices for deployment, configuration, maintenance, and usage.

SteelCentral AppInternals Implementation Services

To provide added flexibility when addressing unique customer requirements and desired business outcomes, two different packages of the SteelCentral AppInternals Implementation Service are available: Standard and Advanced. The following table identifies the service features included in each phase and highlights the differences between each package. Service features identified in the table below are further described in the Service Feature Definitions section of this document.

Service Phase	Service Feature	Standard Service	Advanced Service
Phase 1: Plan and Design	Solution Planning	✓	✓
	Solution Design	✓	✓
Phase 2: Configure	Base Configuration	✓	✓
	Riverbed® SteelCentral™ Portal Configuration	✓	✓
Phase 3: Enable and Validate	Application-Specific Definitions	Up to Three Applications	Up to Three Applications
	Configuration Tuning	✓	✓
	SteelCentral Portal Standard Dashboards	Up to One Dashboard	Up to Two Dashboards per Application
	SteelCentral Portal Custom Dashboards	Up to One Dashboard	Up to Two Dashboards per Application
	Alerts	Up to Two SLA Alerts	Up to Two Alerts per Application
	SteelCentral AppInternals Custom Reports	Up to One Report	Up to Five Reports per Application
	SteelCentral Portal Application Maps		Up to One Map per Application
	Riverbed Portfolio Integration		✓
Phase 4: Document	As-built Document	✓	✓
	Standard Operating Procedures	✓	✓
	Operational Best Practices		✓

Products

The applicable products that will be configured as part of the services provided for each package version are as follows:

Service	Applicable Products
Standard Implementation	<ul style="list-style-type: none"> One SteelCentral ApplInternals Analysis Server Up to 50 agents
Advanced Implementation	<ul style="list-style-type: none"> One SteelCentral ApplInternals Analysis Server Up to 50 agents

Service Feature Definitions

Service Feature	Definition
Solution Planning	Review requirements and plan high-level activities required to accomplish the implementation tasks with the customer.
Solution Design	Review customer's network, application, and management system architecture, determine configuration required, and provide guidance for product deployment.
Base Configuration	Initial configuration of SteelCentral ApplInternals Analysis Server, including management IP address, email gateway, external authentication source, and product updates.
SteelCentral Portal Configuration	Adding implemented Riverbed product as a data source to SteelCentral Portal. If a SteelCentral Portal license has not been deployed, this includes performing base deployment in order to add the data source.
Application	Up to 20 unique components behind one "entry" IP address within one data center that provide services to satisfy individual requests (multiple Java or .NET applications on one host count as multiple components). If the application is web based, the application definition can have up to five unique URL patterns.
Configuration Tuning	Adjusting configuration options within the SteelCentral ApplInternals Analysis Server web interface to permit enhanced monitoring for the selected applications.
SteelCentral Portal Standard Dashboard	Standard dashboards that are available out of the box when SteelCentral Portal is purchased.
SteelCentral Portal Custom Dashboard	Customized, application-specific SteelCentral Portal dashboard views that are developed during the course of the implementation service.
Alert	An alert is based either on customer-provided SLAs (thresholds) or from a baseline analysis of at least one week of historical data .
SLA Alert	An alert based on a customer-provided SLA (threshold).
SteelCentral ApplInternals Custom Reports	Reports derived from SteelCentral ApplInternals Analysis Operators that are developed over the course of the implementation service.
SteelCentral Portal Application Map	An application model, including the application map and the corresponding views created by SteelCentral Portal.
Riverbed Portfolio Integration	Configure standard integrations with other Riverbed products the customer owns (e.g., drill-downs from SteelCentral Portal, SteelFlow WTA, Riverbed® SteelCentral™ NetShark flow export to Riverbed® SteelCentral™ NetProfiler, etc.).
As-built Document	Documentation detailing deployment and configuration performed as part of the Riverbed product implementation.
Standard Operating Procedures	Documentation on best practices for configuring and maintaining the product such as updating software versions, application definitions, reports, etc.
Operational Best Practices	Documentation on common triage workflows using the product.

Scope

The SteelCentral AppInternals Implementation Service is delivered remotely unless applicable Travel & Expenses (T&E) are purchased separately. All activities are done in consecutive days. The service is expected to be completed within three months of purchase unless otherwise specified in the Agreement. This service does not include any Riverbed products or any application performance troubleshooting or analysis. All Riverbed products must be purchased separately.

Invoicing and Pricing

- For pricing information, or to create a customized engagement, please contact your Riverbed Professional Services sales representative or send your inquiry to proserve@riverbed.com.
- The services described herein will be delivered in phases as set forth in this document.
- Fees may be invoiced upon completion of each phase. Fees for each phase may be invoiced in equal amounts based on the total amount of fees divided by the total number of phases.
- If you are purchasing directly from Riverbed, additional terms and conditions applicable to invoicing and payments are set forth in the Agreement. If you are purchasing through an authorized Riverbed channel partner, please contact your channel partner representative for details on invoicing, payment, and fees.
- All Professional Services provided by Riverbed are subject to the applicable terms and conditions available at www.riverbed.com/termsandconditions/professionalservices (if you are a Riverbed customer) or at www.riverbed.com/partnerprofessionalserviceterms (if you are an authorized Riverbed channel partner) ("**Agreement**"). If you have a separate mutually signed agreement with Riverbed that expressly covers the sale of Professional Services, that agreement will govern your purchase of Professional Services, provided that in the event of a conflict between that agreement and the Agreement, the Agreement will control solely with respect to the Professional Services set forth in this Brochure.

About Riverbed

Riverbed, at more than \$1 billion in annual revenue, is the leader in application performance infrastructure, delivering the most complete platform for the hybrid enterprise to ensure applications perform as expected, data is always available when needed, and performance issues can be proactively detected and resolved before impacting business performance. Riverbed enables hybrid enterprises to transform application performance into a competitive advantage by maximizing employee productivity and leveraging IT to create new forms of operational agility. Riverbed's 26,000+ customers include 97% of the *Fortune* 100 and 98% of the *Forbes* Global 100. Learn more at riverbed.com/services-training.
